

Curriculum Vitae

Dr.-Ing. TOEBBEN Helmut

CURRENT POSITION

Name of company

German Aerospace Center (DLR)

Job position

Institute of Flight Guidance

Head Management Services & AT-One

PROFESSIONAL BACKGROUND

Helmut Toeppen joined the German Aerospace Center (DLR) at the Institute of Flight Guidance in 1994. Until 1999, Helmut Toeppen was holder of a DLR Scholarship in the Department of Sensor technologies and Avionics. He was deeply involved in the fundamental research regarding the accuracy of laser gyros. From 1999 to 2005 he was in the Department of Pilot Assistance where he was responsible for several research projects. His main focus was in the area of new pilot assistance systems. Since 2005 he was the Business Manager for Onboard ATM, Human Factors and Training. Since 2015 he is Head of the Department Management Services & AT-One. At the same time he is the Director of the AT-One EEIG, the strategic alliance between NLR and DLR.

EDUCATION AND TRAININGS:

Dr. Helmut Toeppen received a degree as Diplom-Physiker (Dipl.-Phys.) from the Leibniz Universität Hannover, Germany in Physics in 1994. He received a doctorate degree (Dr.-Ing.) in 1999 from Technische Universität Braunschweig, Germany, in 1990.
