

Curriculum Vitae

Mr Olivier de la Burgade

CURRENT POSITION

Name of company

THALES AVS France SAS

Job position

Head of Customer Solutions Chief Architects

PROFESSIONAL BACKGROUND

Olivier has 25 years experience in cockpit, avionics and CNS-ATM systems.

He started his career as consultant working on a wide range of CNS-ATM studies for more than 10 years.

He then integrated Airbus in 2005 to contribute to the European ATM Master Plan definition in the SESAR Definition Phase.

From 2008 onwards, he built and managed the "Aircraft Systems" Work Package of SESAR 1, composed of about 30 projects carried out in collaboration with several airborne equipment manufacturers. In 2012, Olivier moved to the Airbus design office to manage the teams in charge of defining and validating new cockpit functions, in particular for the A350, which was close to its first flight.

Since 2017, Olivier has been working for Thales AVS as Air Transport Solutions Chief Architect and now as head of Customer Solutions Chief Architects, within the Flight Avionics division.

EDUCATION AND TRAININGS:

Olivier is graduated as an engineer from the Ecole Nationale de l'Aviation Civile, and holds a post-graduate diploma in Management from Paris Panthéon Sorbonne University
