

## VACANCY NOTICE

### Head of Call Coordination & Grant Management Sector (ref VN131)

Administrator - TA 2(f) – AD8

The SESAR 3 Joint Undertaking has set up a selection procedure to establish a reserve list for the position of **Head of Call Coordination & Grant Management Sector (TA 2(f) – AD8)**. The duty station is in Brussels, Belgium where the SESAR 3 Joint Undertaking has its headquarters and where the place of employment is.

#### 1. INTRODUCTION

##### 1.1 SESAR

SESAR is the technological pillar of the EU's Single European Sky policy and a key enabler of the European Commission's Sustainable and Smart Mobility Strategy. SESAR defines, develops and deploys technologies to transform air traffic management in Europe.

##### 1.2 The SESAR 3 Joint Undertaking

The SESAR 3 Joint Undertaking (SESAR 3 JU) is established under Council Regulation (EU) 2021/2085 as an institutionalised European partnership between private and public sector partners to accelerate through research and innovation the delivery of the Digital European Sky. To do so, it is harnessing, developing and accelerating the take-up of the most cutting-edge technological solutions to manage conventional aircraft, drones, air taxis and vehicles flying at higher altitudes.

##### 1.3 Digital European Sky Programme

The SESAR 3 JU is responsible for implementation of the Digital European Sky Programme and operates an innovation pipeline towards deployment, by also demonstrating the viability of the technological and operational solutions, in larger and more operationally-integrated environments.

The Strategic Research and Innovation Agenda (SRIA) for the SESAR 3 JU presents the strategic research and innovation (R & I) roadmaps for the years 2021 to 2027 to deliver on the implementation of the Digital European Sky by delivery of a Programme of the same name (i.e. fully scalable services supported by a digital ecosystem minimising the environmental footprint of aviation), including the integration of drones, matching the ambitions of the 'European Green Deal' and the 'Europe fit for the digital age' initiative. The activities outlined in the SRIA to build a digitalised infrastructure are also critical for a post-COVID recovery, enabling aviation to become more scalable, economically sustainable, environmentally efficient and predictable.

To achieve the Digital European Sky (Phase D of the European ATM Master Plan), nine research and innovation flagships (referred to as "Destinations" in Horizon Europe) have been identified in the SRIA with their underlying R&I needs/challenges. These will be the basis for identifying future SESAR Solutions, and are the subject of the Digital European Sky Programme. The nine innovation flagships are: Connected and Automated ATM, Air-ground integration and autonomy, Capacity-on-demand and dynamic airspace, U-space and urban air mobility, Virtualisation and cyber-secure data sharing, Multimodality and passenger experience, Aviation Green Deal, Artificial intelligence (AI) for aviation, and Civil/Military interoperability and coordination.

With the Digital European Sky comes the promise of making Europe's airspace the most efficient and environmentally-friendly sky to fly in the world. For more information, see: [www.sesarju.eu](http://www.sesarju.eu)
